EDUCATION

University of Waterloo

September 2023 – April 2028

Bachelor of Environmental Sciences, Geography, Specialization in Aviation

Waterloo, ON

Relevant Courses: Stat. for Environmental Research II, GIS II, Computer Science II, AVIA 100, Geodesy & Surveying

PROFESSIONAL EXPERIENCE

Marketing Coordinator

June 2026 – August 2026

Elegant Closets

Ajax, ON

- **Overhauled CRM data** for **2,000+** customers by cleaning contact records, standardizing fields, and applying segmentation tags to improve campaign targeting and sales tracking.
- Reformatted website copy and service pages using **SEO keywords, search intent, and content structure**, contributing to a **40% increase** in organic website traffic.
- Created customer follow-ups, promotional emails, and lead communications, reducing average response time by **35%** and improving appointment conversions.

Technical Analyst

January 2025 – August 2025

Region of Peel

Brampton, ON

- Led development and deployment of **2** internal GIS applications using **Survey123 Connect** and **ArcGIS**, replacing manual forms with guided digital entry and reducing processing time by **60%**.
- Planned and executed migration of **1,000+** backflow records into a centralized geodatabase, improving data organization and enabling efficient spatial queries and asset management.
- Conducted contractor pricing analysis across **50+** vendor entries and produced stakeholder dashboards and **10+** SOP templates to improve reporting and cross-team coordination.

Founder

July 2022 – January 2023

TechTurbo

Pickering, ON

- Founded a technology consulting firm; secured a **\$3,000** grant and recognition among **2,000+** applicants from the Business Advisory Centre Durham.
- Delivered custom system builds, hardware configurations, and network solutions tailored to client needs, improving system performance by up to **40%**.
- Owned **SEO, social media, and digital marketing**, creating targeted content and campaigns that increased **client engagement by 80%** and strengthened the company's online presence.

PROJECTS

Infrastructure Spatial Planning Project | GIS, Geodesy & Survey Design

November 2025 – December 2025

- Designed a multi-method survey and spatial planning proposal for the **WRHN Hospital**, incorporating a closed traverse, **total station radial survey**, and **dGPS**.
- Produced layered GIS deliverables (planimetric, contour, **orthophoto**) and spatial analyses used to evaluate access routes, surrounding infrastructure, and site constraints.
- Developed survey control specifications and positional tolerance requirements to support accurate mapping and infrastructure planning for the **hospital development site**.

Memories & Extinction | Roblox Studio, Lua

May 2023 – June 2023

- **Led full-stack development** in **Roblox Studio**, creating over **100** models and UI elements and implementing a points system that increased engagement by **35%**.
- Optimized **Lua** scripts by reducing repeated calculations and using more efficient **data lookups**, improving frame stability and performance in large scenes.
- Ran iterative QA and user feedback cycles to prioritize fixes and ship stable weekly updates.
